FCC Group

1.7. Value creation

Our incumbent position enhances our ability to benefit from the strong fundamentals of our core business areas

Environment

- Positive long-term outlook due to regulatory developments and environmental considerations.
 - EU Waste Framework Directive requires member states to recycle at least 55% of their municipal solid waste by 2025 and 65% by 2035 plus landfilling down 10% also in 2035.
- New opportunities offered by expected reforms in Spain on recycling and composting (2023).
- Expansion potential in existing platforms: USA, UK and some Central European countries.

Water

- Positive long-term outlook due to regulatory developments and environmental considerations and water infrastructure gap.
- Take advantage of the extensive experience in the integral water cycle management, to apply in business opportunities in countries with low PPP activity.
- Growth potential in Europe and selectively in America and MENA.

Construction & Cement

- Continued infrastructure gap in selected jurisdictions. Stringent management of cash flow generation and third-party risk.
- Potential growth in Spain linked to clean energy, efficiency and related facilities.

Real Estate

- Combined recurring rental income with property asset build to rent) and residential housing development in high demanded areas.
